Thank you for your interest in a classroom presentation from School Milk!

We have classroom presentations to help students learn more about food in a fun and engaging way. Please select an activity that best suits your class. Email the completed form to PEI School Milk at info@peischoolmilk.ca.

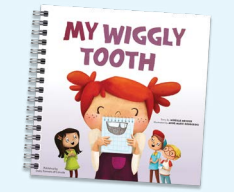

Grades K–3

☐ Saturday at the dragon house book

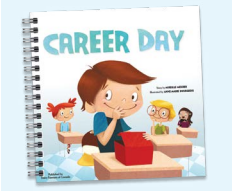

A read-aloud book and activities focusing on food and cooking.

☐ My wiggly tooth book

A read-aloud book and activities focusing on taking care of teeth.

☐ Career day book

A read-aloud book and activities focusing on careers.

☐ Exploring food with the 5 senses

An activity where students will use their senses while exploring foods. They will also build their vocabulary.

Grades K–6

☐ Food picture cards and posters

A kit that helps build food knowledge and supports learnings in English language arts.

☐ Food matching game

A game to learn where foods come from. Kids will get to match foods to the main food sources in Canada.

☐ Bingo game

A bingo game featuring foods grown or produced in Canada. It uses calling cards with clues, origins and fun facts.

☐ Build a parfait cooking activity

A fun cooking activity where students make their own parfaits! A class set of reusable cups will be provided so they can take cups home.

Grades 4-6

☐ Butter in a jar

A science experiment where students will make butter and buttermilk by shaking cream and salt in a jar.

☐ Ice cream in a bag

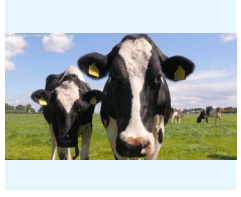

A science experiment where students will make ice cream with only a few ingredients. They will mix the ice cream by hand until it freezes.

☐ Milk journey paper chain

Paper chain sequencing activity to help students learn about the journey of milk from farm to table.

☐ Milk journey video

Video from School Milk Foundation showing how milk travels from dairy farms to tables across PEI.

☐ Food word cloud

An activity with fillable worksheets showing pictures of various foods. Students will choose words to describe each food using a word bank.

☐ Food word wall game

A game that uses adjective cards to help students explore foods in class. It focuses on using their five senses and increasing vocabulary.

☐ C.F.G. Mission activity booklet

An activity booklet with puzzles and games to learn about balancing meals.
